- Time Zone
- A country
- Interaction with social networks.

For correct operation, the application interacts with social networks. You will see this when you start using the functions of the application. We do not share your data with social networks. What data can be obtained:

- Time intervals
- Name

Children's Privacy

These Services do not address anyone under the age of 13. I do not knowingly collect personally identifiable information from children under 13 years of age. In the case I discover that a child under 13 has provided me with personal information, I immediately delete this from our servers. If you are a parent or guardian and you are aware that your child has provided us with personal information, please contact me so that I will be able to do necessary actions.

How data is used

These data are necessary for the stable and correct operation of the application. And also for analytics and improvement of our application.

Data transfer to third parties.

User data is private and not transferred to third parties.

Legality of data collection

The user of the application confirms that any data related to the phone number used in the Application belongs to the user legally. The user guarantees that the data processing does not violate the rights of third parties and any use of the Application is carried out with the consent of the user and on his direct instructions.

The amount of data processed.

The user has read the functionality of the application and agrees to the processing of data to the extent to which they are used in the Application

Shelf life

User data processed in the Application is stored from the moment of application installation and throughout the period of Application use

Consent to the processing of your data

By accepting these rules you confirm your acceptance of the Rules and give the unconditional right to the Application to use Your data for processing purposes, as well as the right to request and process data from other services.

Once your package expires, your approval expires. In this case, your application data is not stored, it is deleted.
